

BRAVE- Building Real talents by Aashirwadh Virtual Education

Organised by:

R. Lakshmi Narayanan M.Tech (GOLD MEDALIST – ANNA UNIVERSITY)

S. Lakshmi B.E (former scientist from ISRO)

We have been conducting Mathematics, Physics and Chemistry classes for IX, X, XII, XII , IIT-JEE mains and advanced both online and live.

A. Virtual Classes

a. Features

- i. 6 to7 hours of sessions per week
- ii. Student centric approach towards learning
- iii. Tailor made to students as conventional tuition centres cannot go in parallel with the school coaching
- iv. Increases the confidence level of the students as the program is in resonance with school
- v. Increases the time for self studies
- vi. Reduces the time of travel
- vii. Reduces the stress (mental / physical) of students in attending too many classes at different locations
- viii. Reduces health problems
- ix. Eliminates unnecessary peer group interaction
- x. Possibility of repeating the sessions many times
- xi. Increases the efficiency of all category of students
 1. Below average students can learn at their own pace
 2. Average students can learn much faster and do assignments
 3. Creamy students can complete the lessons quickly and do assignments, HOTS etc
- xii. Suitable for students who take up JEE MAIN and ADVANCED coaching in any of the conventional coaching centres to cover the entire range of CBSE topics
- xiii. Early completion of the course

b. At home

- i. Need internet connection to a BW (Band Width) of minimum 512 kbps
- ii. Increases the moral responsibility of students
- iii. Students can view the sessions 24 x 7 at their convenience
- iv. Students can view the session atleast 2 times to reinforce the concept before the school tests or exam
- v. If a student wants to view the same for the third time,
 1. he / she will be charged Rs.100 per hour towards the platform cost to view from home
 2. no charges will be collected if the student comes to our office with prior appointment (atleast 3 – 4 days before)
- vi. Supervision from the parents side becomes easy
- vii. Stress to parents in bring the child for tuition and transportation cost get reduced
- viii. Parents will have time to motivate the child due to the reduction in their stress

c. At our office

- i. We have a BW of 2 Mbps (Lease line)
- ii. Coordinators will be available
- iii. Students can view the session in the scheduled time to complete a particular ongoing topic
- iv. Students can view the sessions of interest with respect to schools upon prior appointment (atleast 3 – 4 days before)
- v. Students can view the session as many times possible with prior appointment with the coordinators (atleast 3 – 4 days before)

B. One LIVE class per week

- a. One Live class for 2 hours would be arranged. Day/Time would be published later
- b. In the LIVE class, we would like to give more emphasis
 - i. on motivating the children towards positive attitude in education
 - ii. to reduce the stress level
 - iii. towards enriching the concepts they learnt in virtual classes
 - iv. in testing the students in the topic seen
 - v. in discussion of the question bank
 - vi. for reinforcing the board based important topics / reasoning questions / numericals
 - vii. in giving student centric tips to take the examination

C. ASSIGNMENT AND TESTS

1. It can be in any one of the following forms covering the syllabus:
 - a. Fill in the blanks
 - b. MCQs
 - c. Match the following
 - d. Subjective one mark reasoning questions
 - e. Descriptive questions
2. Discussion and Correction
 - a. Fill up, MCQs, Match the following and subjective one mark reasoning questions will be discussed in the class
 - b. Descriptive questions – Corresponding faculties will correct
3. Report and Feedback to parents
 - a. Report will be sent to parents through MAIL / SMS regarding:
 - i. Sessions viewed / attended by their wards
 - ii. Usage of Value added Support
 - iii. Tendency to question in the class
 - iv. Frequency of answering a question in the class
 - v. Marks scored in the test
 - vi. Areas of improvement
