

ERP-SAP SERVICES

Implementations-

Our proven, implementation methodology is powered by standard, process based implementation approach. To accelerate the ERP implementation life cycle. We also use tools and templates developed in-house for ERP implementation. These tools provide cost-effective yet standardized.

Up gradation-

Our Upgrade services can enable clients to extract full value from higher versions of ERP with platforms. Our robust upgrade competency can pave the way for broader transformational changes, which in turn delivers tangible business results for our clients. Our upgrade competency range from pre-upgrade assessment to technical and functional upgrade services.

Rollout-

Our rollout competency is based on a combination of standard tools and templates developed in-house to accelerate the rollout process. Our Global Delivery Model is backed by our strategically located delivery centers and knowledge of local, legal and statutory requirements across different companies.

Outsourcing services-

We outsource manpower in ERP/Non ERP field and in other domains like Web Technology from end-user level to consultant, through outsourcing process.

R&D-

MS Infotech Solution is currently engaging in developing neuro fuzzy enabled energy monitoring device (smart meter) with a capability to forecast short term electricity demand for individual consumer. Along with wireless sensors, networking gear and Display device. It is poised to develop world's most advance smart grid enabled meter for retail/end use customer who is under POC stage.

- Developing proof of concept technology for smart building.
- Development of one of kind wireless sensors for host of industrial sector like current, voltage etc.

Along with IT Synergies designing Advanced Railway Technology platform to assist and support global rail support system. We're currently working in two main product areas:

Train planning, scheduling and simulation systems – It will offer a range of products from leading companies, including:

- Offers a wide ranging suite of integrated planning and operations systems.
- A well-engineered train planning and operational system.
- A seamless train scheduling and monitoring system.
- Introduces greater planning accuracy and operations scheduling for bus, rail, and rapid transit operations.
- Train location and control systems
- Track Warrant and Train Register System

ERP-SAP Competencies:

- *ECC & ABAP/4*
- *SAP Net weaver(EP/PI/MDM/ BI/BW/CE)*
- *SAP (FI-CO/SD/MM/PP/PM/QM/HCM/TM/PS)*
- *SAP Infrastructure*
- *SAP SRM*
- *SAP SCM*
- *Business Objects*
- *SAP IS-Utility*
- *SAP IS-Retail*
- *SAP IS-Banking*
- *SAP ESS/MSS/e-Learning*
- *SAP Cloud, BODS, HANA*

Web Designing & Hosting Segment:

- Multilingual Website with database backup
- Website with Advanced CMS
- Customized Bespoke Website according to features requested
- Proper Product Management System also with Gallery Management System
- E-Mail Accounts/Forwarding/Auto Responders
- Social Media Networking integrated
- SEO & SEM
- Portal Development
- Best web based Control Panel

E-Commerce Features:

- Integrated & module wise Customized Software Product.
- Business Process Re-engineering (BPR)
- Software Requirement and Specification Design (SRS)
- AMC for server/Networking & Oracle /SQL Server / Database.
- *Maintenance (Sun Solaris, HP Unix, Linux, Windows Server including RAC Database)*
- Data Migration
- BI Tools
- ERP (SAP/EBS/Microsoft Navision)
- Data warehousing
- Web site E-Commerce/E-Business
- Excel with VBA Macro Specialization.

Consultancy Services:

Here is a glimpse of what we can offer:

- *Software Development & Project Monitoring Service*
- *Corporate Level Customized Training Program*
- *Web Development Service*
- *Existing software standardization service*
- *Cost benefits Hardware, Software selection & maintenance service.*
- *System & Software Integration Service*
- *System and Database AMC Service*
- *DMS (Document Management System)*
- *Banking Sector Service*
- *Data Migration Service.*
- *Business Development Service*
- *Project wise consultancy service.*
- *Onsite-off shore service*
- *Call Centre Implementation Service.*
- *Mobility*
- *Implementation and Support*
