

About the Teachers:

Mufaddal Attarwala (BE, MBA Finance)

Mufaddal Sir and Nishreen Ma'am have 17 years of experience as private tuition teachers. He has a very friendly and cool demeanor. He neither gets angry nor raises his voice. Students feel emboldened to ask for explanation of even the simplest of concepts repeatedly. There has never been a situation where the problem was not solved or the concept not explained in the simplest of terms.

He encourages students to practice. His teaching methods make students independent rather than making them dependent on permanent help. He is a teacher, guide, facilitator, counselor and a friend to the student. He has the unique gift to bring out the best in each student. Almost all his students show dramatic improvement in confidence, performance and marks. Many students who have behavioral issues change their attitude to their parents, school and studies. Many students lose their fear of a subject, mostly that subject is math.

His class is interspersed with moments of laughter and joy. Learning is a consequence.

Nishreen Attarwala (BCom, B.Ed)

Nishreen Ma'am is friends with all her past students. She is constantly in touch with them keeping a track of their journeys that they have made towards success and happiness. This gives her an immense sense of purpose in her job. She helps students memorize difficult answers with ease. She is a mother and a confidant. Students readily open their hearts out to her. She helps them overcome whatever stress they feel due to pressure of studies or social issues. She is laughter personified and her laughter is contagious.

Every child is life long bond for them.
