

Syllabus- VBA Macro Training (Basic, Intermediate and Advanced Level)

VBA Macro Overview

1. VBA Overview
2. Types of VBA Coding
3. Rules for Defining Macro Name
4. Variable

VBA Cell Objects

1. Cell Objects
2. Range Objects
3. Value Objects
4. Address Objects
5. Row Objects
6. Column Objects
7. Cell Navigation
8. Selection Objects.mp4
9. Offset
10. Insert Objects.mp4
11. Delete Objects

12. Copy Objects
13. Move Columns
14. Various Way to Paste the Data
15. Go To Specials
16. Call Options
17. Cell Object Assessment

Record Macro

1. What is Record Macro
2. When we should use Record Macro
3. How to take help of Record Macro

Worksheet Objects

1. Select Sheet
2. Create Sheet
3. Create More Sheets With Name
4. Get Sheet Name
5. Hyperlink Multiple Sheets
6. Delete Sheets and Multiple Sheets
7. Hide and Unhide Sheets
8. Data Consolidation
9. Data Consolidation Blank Cells
10. Data Consolidation Blank Sheet
11. Data Consolidated Specific Sheet
12. Data Consolidated Specific Sheet Using Find

13. Data Consolidation with Sheet Name - Assessment

Workbook Objects

1. Create Workbook
2. Select Workbook
3. Open Workbook
4. Close Workbook
5. Save and SaveAs
6. Get Path & Name
7. Get All Workbook Name
8. Create Multiple Files with Name
9. Consolidate Multiple Workbook
10. Consolidate Multiple Workbooks Multiple Sheets
11. Consolidate Multiple Workbooks Multiple Sheets with Name - Assessment

Options Objects

1. Apply and Remove Filter
2. Filter Single, Double, Multiple Criteria
3. Filter Single Criteria Multiple Fields
4. Filter Multiple Criteria Multiple Fields
5. Clear Filter and Clear Filter for Specific Field
6. Copy Paste and Delete in Filtered Data
7. Advanced Filter
8. Filter Copy Paste Multiple Sheets
9. Filter Multiple Criteria Multiple Fields Dynamic
10. Sort Single and Multiple Fields

11. Protect and Unprotect Sheet
12. Define Name using VBA
13. Formatting using VBA
14. Assessment - Filter Copy Paste Multiple Workbook

PivotTable

1. PivotTable using VBA
2. PivotTable using VBA - Other Options
3. PivotTable Auto Refresh with Addition Data
4. Dashboard using Pivot VBA

Forms and Summary Table

1. Create Forms using VBA
2. Summary Dashboard - Part 1
3. Summary Dashboard Part 2
4. Summary Dashboard Part 3

Worksheet and Workbook Specific Macro

1. Worksheet Specific Macro
2. Workbook Specific Macro.mp4

VBA Functions

1. IF Conditions Using VBA Function - Values
2. IF Conditions Using VBA Function - Text

3. Tax Calculation using VBA Function

4. Assessment - Advanced IF Condition using VBA.mp4
