INTERNET

Internet is the worldwide network of networks. The internet is the way for computers to communicate. It is not a place. It is a way to get through to other computers.

APPLICATION OF INTERNET-

1. Getting information.
2. Providing information (through web page)
3. Compiling information.

USE OF INTERNET-

Email, Interaction, Assessing people, chatting, E-comers (online shopping), Entitlement.

BENEFITS OF INTERNET-

- Vast range of information.
- Always available.
- Easy to connect people.
- As a source of learning.
- Online learning transfer.
- Working from home, etc.

THANK YOU----
