

Name: Dr Gowri Krishna Jandhyala

Education

- Degree Name Ph.D., Physics
 - Issuing authority Indian Institute of Technology, Chennai
 - Dates attended 1978 – 1983
 - Activities and Societies: • “Dielectric Relaxation studies of organic Compounds at Radio and microwave frequencies”
 - Published 10 technical papers in International and National Journals
 - Presented 4 technical papers in National conferences
- Degree Name Master's Degree
 - College of Physics, Osmania University
 - Physics with Electronics
 - Dates attended 1976 – 1978
 - **5th Rank in University**
- Degree Name Bachelor of Science (B.Sc.)
 - Andhra Loyola College, Vijayawada
 - Field Of Study Physics major
 - Dates attended graduation 1973 – 1976
- "Blueprint For Success"
 - Issuing authority “Qualified Learning Systems Inc”
 - License Issued Aug 1998
- "Leading consciously -- A corporate Retreat"
 - Issuing authority “Management Development Program”
 - License Issued Aug 1998
- "Personal Software Process" Executive Education Program
 - Issuing authority Carnegie Mellon University
 - License Issued Dec 1997
- Languages known to me

Language	Reading	Writing	Speaking
Telugu	Yes	Yes	Yes
English	Yes	Yes	Yes
Hindi	Yes	Yes	Yes
Tamil	No	No	Yes

- Summary of experience-

Company	Year	Role	Highlights
DRDL	1983 to 1997	Deputy Director	I have the privilege of working for Dr Abdul Kalam as part of IGMDP.
Tech Mahindra	1997 to 2010	VP (Head NDE CSU)	I have set up four business streams that strengthened the portfolio by generating revenue and competencies. Spoken at 5 national and international conference as panel member.
Cyient (Infotech Enterprises Ltd)	2010 to 2013	VP, wireless networks and Head CCU	Developed solutions for 5 (five) different telecom business streams. Guided 6 BTech projects and two of them got best projects awards.
Subex	2013 to 2014	Consultant and CTO	Revamping of existing portfolio and identification of new verticals and related portfolio
ISTTM (Management college)	Since 2014	Advisor	Advising on new courses, placement strategies etc. Teaching high value subjects / topics. Helping in finding projects.
Techgene, Adept, Call Health etc	2014 to 2018	Consultant, Director. Advisor etc	More of advisory roles for technology and business.
EXPERIENCE SUMMARY			

- Feedback from students / Colleagues and Customers:

-Not many people can inspire you the way Dr. Gowri can!!....., I found him extremely down to earth and approachable. He is a highly learned person and we were really fortunate to have an opportunity to interact with him.
-I've had the good fortune of acquiring niche performance modelling, design & engineering skills, working in the leadership of Dr. Gowri..... I automatically got a coach who would motivate us & create opportunities for us to go beyond ourselves & achieve what we never thought we could achieve; for eg. the IEEE paper publication was one such..... above all a kind and experienced mentor who would correct us just at the right times. At another level of leadership vision, candor, creativity and values are anyway part of his forte! I have seen him lead the team and take it from one success to another; keeping the team motivated even in some very tough times.
-It's a wonderful experience to work with 'doc' - he instilled the theme 'business oriented research' in me - which today I value the most. Doc is a unique combination of academic scholarship blended with the right sense of doing business.

.....he has the skill of motivating people - right from graduate entry resources to sales representatives for doing the 'right things'

- comes with a rare ability of R&D orientation tempered with business understanding. He is a man of his words and delivers on his promise. He is a wonderful leader and a great human and his team loved to work for him. Doc built the Performance Engg and Modelling & Simulation practices at Tech Mahindra.....
-I have been greatly influenced by his leadership, thought process, ability to look at challenges from opportunity perspective and provide absolute simple but effective solutions. He is a good business man apart from being technically savvy, which is a rare combination.friendly, open and broad minded, always endorsing open door policy. He provokes his colleagues and teams to ensure they are always delivering beyond their dreams!
-professionally he is very clear on his subject. He is focused to the point of perfection..... he knows to keep his team together.....he has a very analytical thought process.....

Key observations in this space.

- Many upcoming Engineers lack the utility of the education they are receiving and the employment (in India and overseas) that they are wanting to get and employment that is waiting for them.
- They lack this information at the time of planning their career path.
- Many engineering colleges lack staff who can help them in this.
- Many upcoming engineers get carried away with social pressures.
- With this they pick up employment in which they are not confident
