

SUSHOVON SAHA

Methodology

I approach everything by examples and in a fun way so that you do not just remember, you conceptualize. It's a unique way which I developed while giving corporate trainings.

I can help you with CBSE science for classes 9 & 10, CBSE Physics, Chemistry 11 & 12, NEET/JEE Preparation

Background

I have been tutoring students for 5 years as a passion in addition to my work as a consultant. My students have seen an improvement of +4% to +28% in their results after my tutoring.

It is important to note that a student has to be motivated enough to improve himself in academics.

A horse can only be taken to the pond by his master, but it is the horse who has to quench his thirst by drinking water.

What makes me a good tutor??

*I'm student friendly. Ask me the same question and I shall teach you until your doubts are cleared.

*I'm regular for your classes.

More about myself
