U.E.C

ABOUT U.E.C

U.E.C has imparted quality education to engineering students.

VISION

Leadership in research and excellence in engineering education.

MISSION

provide students with a broad and exceptional education

SALIENT FEATURES OF U.E.C

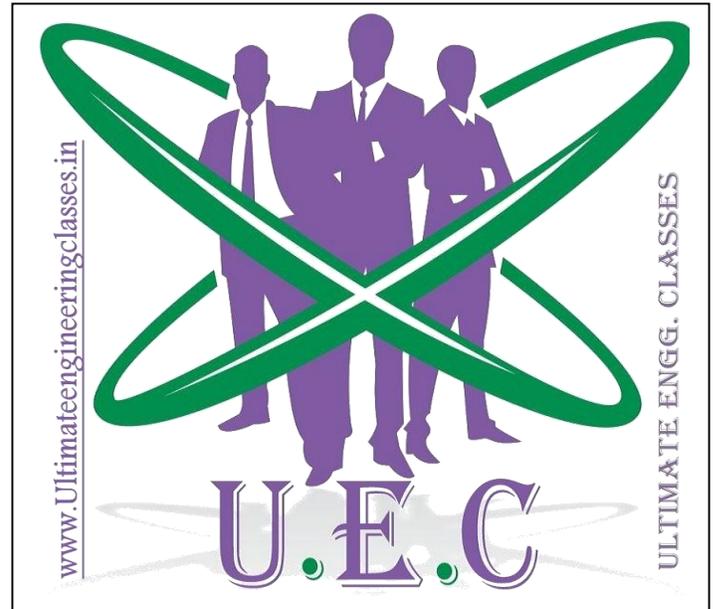

- Wi-Fi enabled classes.
- Air conditioned class room.
- Interview training by experts.
- Soft skill training for final year students.

Ultimate Engineering Classes

One Stop Solution for All Your Engineering Problems

Since its inception, Ultimate Classes of Engineering has imparted quality education to engineering students. With the sky-high ideals and commitment to excellence, Ultimate Classes of Engineering has taken a shape of vibrant, dynamic and responsible institute of the surat. The tradition of innovation and excellence continue with ultimate Classes' quality of education that it imparts to engineering aspirants which reflects its dedication & devotion towards their success in different engineering examinations.

We actually started to make a difference in the way students think and approach problems. We started to develop ways to enhance students' IQ. We started to leave an indelible mark on the students who have undergone our coaching. We started changing lives. And all this was not a sheer coincidence. It was the urge, the compelling desire, to always aspire for perfection and in the process, continuously keep on setting newer benchmarks of excellence, which enabled us and our students to achieve what we have achieved.

These special coaching classes are designed to help enormously the engineering students to think and analyze the problems to creatively develop appropriate solutions for them. Our highly experienced faculty are committed to deliver the tutoring along with counselling to achieve what they want to achieve both academically and socially. Students are our prime focus so we believe in not more lecturing but a more efficient discussions are arranged to get more proficiency in the given technical or mathematical subjects.

Vision

UEC aims at creating a better future for all its students through leadership in research and excellence in engineering education. It will achieve this by adopting a challenging, enlightened, and collaborative academic environment that demands excellence, encourages innovative learning and supports ground breaking discoveries. In this perspective, the institute mission is: To provide students with a broad and exceptional education that prepares them to outshine in their professions and to become creative leaders and mentors in an increasingly complex world and create mastermind engineers who carry ready solution to global problems and make this world a better place to live.

MISSION

To provide students with a broad and exceptional education that prepares them to outshine in their professions and to become creative leaders and mentors in an increasingly complex world and create mastermind engineers who carry ready solution to global problems and make this world a better place to live.

SALIENT FEATURES OF U.E.C

- Wi-Fi enabled classes.
- Sufficient time to teach.
- Air conditioned class room.
- Limited student per batch.
- Monthly or unit wise test.
- Revision like never before read.
- Computerized teaching if necessary.
- Provide any time help centre to ask question from home.

- Soft skill training for final year students.
- Interview training by experts.
- Creating environment to be motivated. and many more....

CURRICULUM ACTIVITIES AT U.E.C

- Competitive exams
- Summer training
- Industrial visits
- Seminar
- Project presentation
- Picnic & Outgoing

SUMMER TRAININGS

UEC provide Six Months & Six Weeks Industrial Training to all the engineering students, which is a part of their Engineering Degree. This practical training (project based) provided to the students enable them to get hand on experience on the latest technologies. The training cell of our institute keeps constant correspondence with the renowned companies and industries so that the students may get paramount exposure and working experience. The industrial training raises the students to the expected level of superiority that is required to first gain the job and then to carry out the vocation with proficiency.

INDUSTRIAL VISITS

UEC provides the students with the opportunities to interact on a constant basis with the industries by the ways of visits to many legendary and prominent companies with an aim to go beyond academics, these visits are arranged to

develop the insights of the students – attaining practical knowledge and their theoretical applications thereof.

The students of UEC are taken for a guided tour into the premises of various industries to provide them with the information about the actual working conditions, make them aware with the industrial practices, increase practical awareness of various industrial sectors and in this way also make them acquainted with the interesting facts and breath – taking technologies.

SEMINARS

Training cell organizes various career guidance and academic Seminars regularly for Ist, IInd, IIIrd&IVth year students. These seminars are aimed at various activities and programs like preparation for interview which includes group discussion, improvement of communication, technical, personnel and managerial skills, individual presentations, mock test, etc. in this way the hidden talents of students are divulged and made available for the betterment & growth.

PROJECT PRESENTATIONS

Presentations are one of the first managerial skills which an engineer must acquire keeping this in the view the institution organizes various project presentation programs regularly for I, II, III & IV year students at the departmental and college level in which complete participation of all the students is prerequisite. Our management being the keen observer of these affairs motivates our emergent professional. Project presentations are organized for the up gradation & updating knowledge, skill & attitude of the students and these kinds of activities also provides our students with the chance to speak their minds.

PICNIC & OUTINGS

The mind gets stressed and strained because of the intense study without any break. In order to reduce the pressure and tension picnics and outings are planned

which provides students with the chance to get rejuvenated and the fun and frolic recharge them again for their schedule life.
