

<Project/Program Name>

<Test Scenario # and Name>

Scenario #: Scenario Name

Scenario Description

- Describe the intent of the test scenario
- Test scenarios (aka test set or test suite) are a set of test scripts that cover a specific functional area, business process, use case, etc...
- For example, a given test scenario might cover an order placed on a web site by an existing customer (another scenario might cover orders placed by new customers) – test scripts within the scenario might cover a single item order, a multiple items order, quantity not on hand exception, etc...

Version Control

Version #	Date	Author	Description
0.1	01/01/2006	Author Name	Initial Draft
1.0	01/10/2006	Author Name	Initial Version

Test Scripts

The following scripts will cover this scenario:

- 1.1 Test Script Name
- 1.2 Test Script Name
- 1.3 Test Script Name

Use Case

- List the Use Case covered by this Test Scenario – limit the test scenario to just one Use Case

Test Components/Requirements

This test scenario covers the following high-level test requirements (see scripts below for specific requirements covered by each test script):

- Component 1
- Component 2
- Functional Requirements Group 1

User Groups

- User group/responsibility 1
- User group/responsibility 2

<Project/Program Name>

<Test Scenario # and Name>

Script #: Script Name

Script Description

- Test scripts (aka test procedures) list the specific steps a tester will take, along with the expected results

Testing Requirements

This test script covers the following specific testing requirements:

- List all requirements covered by this script – this ensures traceability across all phases of the project

Setup

- List of all required steps that should be completed prior to executing this script
- Examples might include required test data, other scripts that should be run before this one, initial states that should be set, specific required equipment/software, etc...

Teardown

- List all steps that should be taken after the test case is executed

Script Steps

Step #	Test Action	Expected Results	Pass/Fail
1			
2			
3			
4			
5			
6
