

## **Why People Loose Money in Stock Market?**

I have been into Stock Trading from past 10 years and have met many traders, some claim that they have 10 years experience, some say they have 20+ years of experience. But when we say their trading patterns, majority of them have ZERO KNOWLEDGE.

According to them, market was not supposed to GO UP (because they have positions).

They only BLAME stock operators, their BROKERS, the technical expert who gave the trading calls. But NEVER accept that they were WRONG.

PS: MARKET will not SPARE anyone. If you are WRONG, do not argue with market.

Remember only one thing. NO one is RIGHT.

Only MARKET is RIGHT.

People have become bankrupt by trading wrongly and still they do not invest their time in learning.

They only want to GAMBLE. And remember in a CASINO, who wins???

Only the CASINO owner.

So if you want to only make money for your BROKER, enjoy ignorance.

Else, invest your time and money in learning Technical Analysis.

The mindset of a TRADER is very very important. Without the right mindset, you can NEVER make money in stock market. Stop gambling in market and blame it. If you want to learn more about the market, then email me with subject line - STOCK TRADING to my email [nsebstocktradingcalls@gmail.com](mailto:nsebstocktradingcalls@gmail.com)
