3) www.mailmeteor.com - This website is for checking whether our description is spam free or not.

4) quillbot - www.quillbot.com
website is for checking
grammar mistake of
our title and description

5) Canva - By Canva application
we can design our email
template. Paste ~~the~~ product
title, description in email
template. upload product
~~img~~ image. At the bottom
paste BUY NOW Button.
Insert a product affiliate
link in buy now button.
whenever some click on
this button. go to affiliate
site. if he makes payment
their. The product commission
will be goes to our bank
account.

Purchase \$8/month membership
of Canva app. and make
beautiful templates.

6) www.mailgenius.com = mail
genius.com tells you to
check spam in your email.
They give you email address
copy that email address
and send one email to
that email address. if
~~spam~~ your email have any
spam. then it tells you
o.k
