

The reason.

“If we cannot explain complicated things in a simple way, we have not understood”.

Three points approach (This is the ***constant*** part, hence works always!)

1. **INTELLIGENCE. (constant)**
2. operations.
3. Foundation.

1. Defining Foundation : Education, Food, House, transport, sleep.
2. Defining Operations : Increasing the “luxury” of the Foundation.
3. **INTELLIGENCE.**

Note how the order changes above. This is because, personal life cannot be run with the same understanding as we should with work or business.

This three points approach is what corporates,religious institutes, management companies etc etc have panned into trying to FIGURE out, hence the economy, religion,commerce, money...etal

We are not redefining or creating anything NEW.

1. Quick checklist.
 - Do we have this in religious scriptures- Yes.
Every scripture talks about controlling body and mind. It is in the understanding!
