

“ SPIRITUALITY works only if FOUNDATION and OPERATIONS sync”

3 POINT APPROACH = **INFINITY**.

1. **FEMININE ENERGY** = CREATIVE YET MOSTLY DORMANT ENERGY IN EVERY LIVING THINGS INCLUDING HUMANS, ANIMALS, PLANTS, FISH, BIRD ETC .
2. **MASCULINE ENERGY** = This DISECTS the FEMININE energy Information.
3. **INTELLIGENCE** = The end result of masculine energy dissecting the feminine energy.

The 1, 2 and 3 is the complete ENERGY FORM and all the scriptures from all the religion discusses various methods to achieve this INTELLIGENCE.

Humans, regardless of gender are all capable of achieving it if the Energy (1&2) is balanced because of our higher level of evolution genetically.

IT IS THE UNDERSTANDING we are REDEFINING.

All religious texts are encoded in this “3 point” strategy when we initially started this discussion and we are talking the same again and again because, it works that way, if normal human mind is trained to see this pattern without forcing any IMAGINATION, it works wonders!

The **Beginners** guide what I shared is a small step towards balancing this 1&2 energy forms using the FIVE elements in our body - food (earth) , water, air, fire (present in every process involved in our body and **Akash/INTELLIGENCE**).

The **Advanced** methods are all just fine tuning the same factors using various methods but with better understanding.

MAIN USP : We are giving basic methods without holding any kind of information for free. ONLY techniques and methods that have even a little chances of imbalance will be focuses at individual level.

There are millions of mediators who don't have the same knowledge what we are sharing for a simple reason of Understanding. This consumer base will build faster simply because of quality of information and scriptures to cross reference themselves.

40% of the paid methodologies won't involve any kind of chanting or prayer of any sort, but using our own body in a much more comfortable way!
