

Comprehension passage:

Deep within the lush jungles of the Amazon, there exists a hidden village known as Serenity Haven. Surrounded by towering trees and vibrant wildlife, the village thrives on ancient traditions and sustainable practices.

Nina, an anthropologist, ventured into Serenity Haven to study the unique cultural heritage of its inhabitants. The villagers, connected deeply to nature, celebrate annual festivals that honor the spirits of the jungle. Their traditional dances and rituals tell stories of the symbiotic relationship between the people and their surroundings.

As Nina immersed herself in the community, she uncovered the secrets of the herbal remedies used by the villagers. These remedies, passed down through generations, showcased a profound understanding of the medicinal properties of the rainforest flora.

In Serenity Haven, every villager plays a crucial role in preserving the delicate balance of their ecosystem. They live harmoniously with the environment, using eco-friendly practices that have sustained their way of life for centuries. Nina's journey revealed not only the richness of Serenity Haven's cultural tapestry but also the importance of coexistence with nature in maintaining a sustainable future.

Speaking:

- 1) Speech topics: The struggles of coming to school without homework.**
- 2) Imagine how your dream school will be and tell us how you are going to govern it if you are the CEO.**
- 3) Imagine that you have time travelled to 2050. What are the changes that you see and how is your experience?**
- 4) Act as a news reporter and cover a crime report or a natural disaster report on spot.**
- 5) Conversation: You have met someone from Japan who has come to visit India and he/she is asking for your help and insights regarding India. Strike up a conversation with this person (another student) as to how he/she can go about the trip.**

DREAMLAND SCHOOL
