

# GrowMe Career Counselling

Thank you for showing interest in GrowMe Career Counselling. As discussed, I'm pleased to share a brief overview of our services, the core challenges we address, and the benefits your child will gain through our personalized guidance.

## The Problem We Address

A student who has just completed Grade 10 stands at a critical crossroads. With 20+ career clusters, 3,000+ career paths, and over 12,000 job profiles, choosing the right stream and subjects can be overwhelming-even if the student has a general idea of what they wish to pursue.

Without professional guidance, this phase often leads to confusion, misaligned decisions, and missed opportunities.

Just like routine health check-ups are essential for physical well-being, career counselling acts as a preventive measure to ensure long-term clarity and success in a child's professional journey.

## Why Choose Career Counselling at This Stage?

Even if your child is confident about choosing a stream (e.g., Commerce), their decision should be backed by expert analysis and a detailed report.

Our career counselling ensures that:

- The student's decision is aligned with their personality, interests, motivators, skills, and abilities
- A clear 10-15 year roadmap is established-from subject selection to graduation, certification, and career entry
- Students and parents experience peace of mind and confidence, reducing stress and guesswork

## GrowMe Offerings

Our structured approach includes:

One-on-One Counselling Session (60 minutes)

# GrowMe Career Counselling

22+ Page Comprehensive Career Report

3 Months of Post-Counselling Support

5-Dimensional Career Assessment

Motivational Session & Study Techniques

College & Exam Information

## Our Approach

Our process is backed by reliable psychometric assessments, holistic educational planning, and a personalized career roadmap.

We help students discover:

- Their natural strengths and learning styles
- Suitable career paths backed by data and research
- A step-by-step action plan for academic and career growth

This ensures that the child doesn't just study a subject but builds a career that fits their profile and long-term goals.

Should you have any questions or wish to proceed with a session, I'd be happy to guide you through the next steps.

Warm regards,

Mrs. Bhumika
