INDIA STAR YOUTH ICON AWARD 2019

I Received India star youth icon award 2019 by India book of records, On the 150th birth anniversary of Mahatma Gandhi 2nd October 2019.

Aim to raise the profile of young people and highlight the contribution they are making towards developing a fairer, sustainable, peaceful, regional and national recognition and support to those young men and women who have demonstrated young people's capacity and potential to make positive contributions to their communities, nations and the world at large.

LIMCA BOOK OF RECORDS (50hrs Training Non-Stop)

LIMCA BOOK OF RECORDS 2017

We received Limca Book of records 2017, The national Award.

This is an India's Longest Marathon on Ethical Hacking & Cyber Security Awareness Program.

It was a Long Marathon.

The Police Department, Students, Corporate people are attended to this Awareness Session.

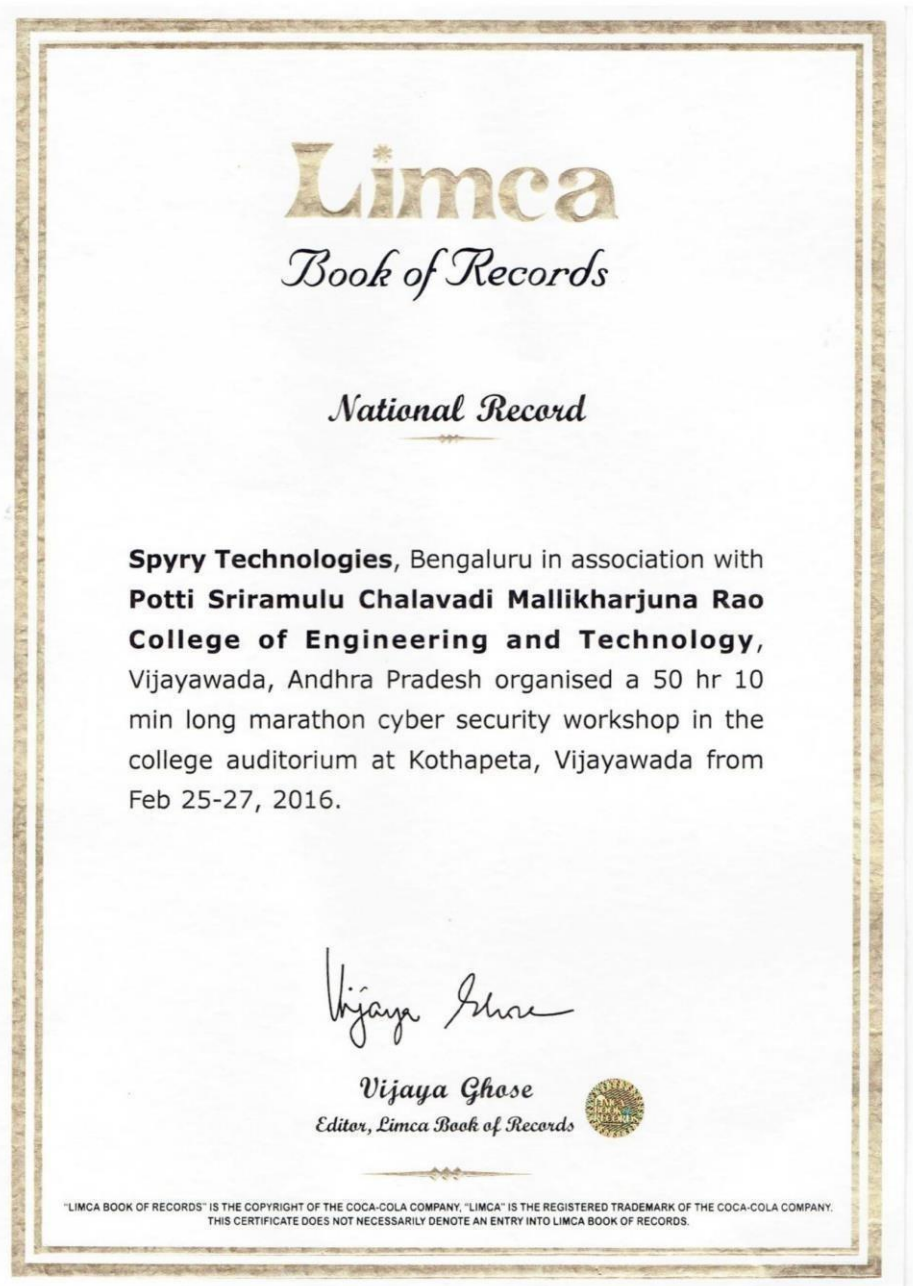

And huge number of people are attended to this Event.

This Event was conducted in PSCMR College of Engineering on 25th-27th February 2016.

And this Program is Successful, finally we in to the Limca Book in 2017.

LIMCA BOOK OF RECORDS CERTIFICATE

LIMCA BOOK OF RECORD 2017 CERTIFICATE

Our Company Spyry Tech in Associated with Potti Sriramulu Chalavadi Mallikharjuna rao college of engineering and technology Organised 50hrs 10min Long Marathon Cyber Security Workshop. From 25th to 27th Feb 2016. This record is done by 3 people in that I'm one of the resource person. The Speakers names are mentioned in Limca Book of Records 2017 Edition Book.

LIMCA BOOK 2017 PAGE: 94

Longest computer security workshop

Spyry Technologies, Bengaluru in association with Potti Sriramulu Chalavadi Mallikharjuna Rao College of Engineering and Technology, Vijayawada, Andhra Pradesh organised a workshop on ethical hacking and cyber security. The workshop which was conducted in the college auditorium at Kothapeta, Vijayawada lasted for 50 hr 10 mins from Feb 25-27, 2016. Prameel Arjun KVN (primary speaker), Bharath Kumar Gayam and Chaluvadi SS Santosh of Spyry Technologies were the speakers for the workshop and taught the interested students various aspects of keeping their computer and data safe.

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Spyry Technologies, Bangalore in association with Potti Sriramulu Chalavadi Mallikharjuna Rao College of Engineering and Technology, Vijayawada organized and successfully completed the "48 hour Cyber Security Marathon" from 25th February 2016 to 27th February 2016. This is a 48 hour Non Stop, Continuous Cyber Security/Ethical Hacking Workshop organized in our College Auditorium.

This marathon is an official attempt for "Limca Book of Records". The event was organized as per the guidelines prescribed by the officials of Limca Book of Records and was under constant surveillance.

This event begun on 25th February 2016 at 11:25 am and ended on 27th February 2016 at 04:10 pm. The event was scheduled to end after 48 hours, but seeing the enthusiasm of the participants, the speakers further continued and concluded their sessions after 52 hours 45 minutes from the start time.

The resource persons and their total session durations in this workshop are:

1. Prameel Arjun KVN – 34 hours 2 minutes
2. Gayam Bharath Kumar – 12 hours 8 minutes
2. Chaluvadi Sri Sai Santosh – 4 hours

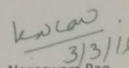

Additionally, health check breaks and toilet breaks were given during the marathon. Total intervals/break time is 2 hours 35 minutes.

The marathon received huge response from students and the participants are ~700. However, some participants attended the multiple sessions as well. Hence, the total participation is ~1050. Students, faculty from various courses and colleges participated in the marathon. Interesting thing is that, Cyber Crime Police Team of Vijayawada Cyber Cell also actively took part in the marathon and appreciated us for hosting this marathon.

Overall, the feedback about the marathon was extremely good and also, this marathon was covered extensively in print/digital media.

It was great associating with Spyry Technologies for this "48 hour Cyber Security Marathon" so far, and I expect that this event will create a record in "Limca Book of Records".

Yours Sincerely,

3/3/16
Dr. K. Nageswara Rao,
Principal.

EXTRAORDINARY TALENT AWARD 2019

EXTRAORDINARY TALENT AWARD 2019

I received the extraordinary talent award 2019. An International Award on 10th December 2019.

Aim to raise the profile of young people and highlight the contribution they are making towards developing a fairer, sustainable, peaceful, regional and national recognition and support to those young men and women who have demonstrated young people's capacity and potential to make positive contributions to their communities, nations and the world at large.

CERTIFIED ETHICAL HACKER

Certified Ethical Hacker

I'm a Certified ethical hacker by EC Council, is a qualification obtained by demonstrating knowledge of assessing the security of computer systems by looking for weaknesses and vulnerabilities in target systems, using the same knowledge and tools as a malicious hacker, but in a lawful and legitimate manner to assess the security posture of a target system. This knowledge is assessed by answering multiple choice questions regarding various ethical hacking techniques and tools.

Hackers Day is a Non-Profitable Information Security Organization for promoting, demonstrating & spreading awareness regarding the field of Information Security.

YOUTH AMBASSADOR from IYS

October 19, 2019

Bharath Kumar Reddy Gayam
Narasaraopet, India

Subject: Appointment letter to work as Youth Ambassador.

Dear Fellow,

Warm greetings and congratulations to you !

Further to our discussion with you, i am now pleased to inform you that you have been appointed as the **Youth Ambassador** for our Youth-Led Organization of **International Youth Society** effective October 20, 2019.

I firmly believe we are in International Youth Society mostly for doing good works for youth, our community and world by enhancing our strong bondage of fellowship and friendship. We need position but that should not be the number one priority. If we are dedicated and committed and also love International Youth Society we can work from any position.

I am dreaming our future will be successful and peaceful by love, dedication, commitment and of many good works for humanity. Together we will reach our destination.

Keep up your good work and wishing you best of luck.

With thanks and regards,

FEATURED IN VIZAG NOW MAGAZINE

SUCCESS STORIES

HOW WAS THE SUPPORT FROM HOME?

Arjun: There wasn't much support in the beginning, as our parents did not trust the concept. For them it was like, why can't I look for a regular 8 hour job and earn somewhere around 20,000-25,000 per month. Then we thought of giving it a try for a year and if it didn't work out, simply follow their instructions. That's what we had in our mind and thankfully due to our efforts and the blessings of God, we are successful. My biggest support was my mother whom I lost within a year of starting Spyr. So now, all I want to do is to keep up her legacy with Spyr. After Spyr picked up momentum and when we are being noticed as a brand, our parents started supporting us and right now they are like backbone to us.

HOW DID YU GATHER FUNDS TO ESTABLISH STARTUP?

Arjun: Whatever was the investment, it was from our own pocket as we did not get any financial support from our parents. I used to do some digital marketing works from home and earn on an average of 30,000-40,000 a month. Whatever amount I pooled in during my engineering by working for online media, became the primary investment for Spyr. But now, our turnover is approximately 15 to 2 crore per annum.

ANY FUTURE PLANS THAT YOU CAN SHARE?

Arjun: I am happy to say that we have set up a branch in America recently. We got all the formalities done. We want to have a global reach. Right now we have clients from Singapore, US, and Australia. Our first target is to establish a global footprint. Then to set-up a branch in Vizag and to grow manifold in terms of profit, in this financial year.

WHAT INSPIRED YOU TO GET INTO THIS FIELD?

Arjun: When I was in my seventh class I was hacked for my game score. I cried for 3 to 4 days for my score. Then my cousin told me that I was hacked. That's when I heard about hacking. I was in my tenth when I started finding vulnerabilities and loopholes in websites and reported them to the admins. I started getting rewards in the form of money. This made me more exciting as my family was middle class. My father used to think that I was hacking money from bank accounts. I learned everything about hacking all by myself, with the help of Google. That was how I got fascinated towards cyber security.

Bharat: When I was in my ninth, I overheard my seniors talking about hacking. I was intrigued by the concept and started to learn hacking and unknowingly became a black hat (one who hacks on personal impulses). I used to solve real crime cases with the cyber crime police. As I started dealing with these regularly, I became a 'black hat'. Therefore it became easier for me to find flaws in the cyber world. Once, I even solved a cyber crime, which involved my family. My mother told me that in order for a person to be noticed, he should either be of their level or above them. That was when I started projecting out my knowledge in a Facebook page. That was when Arjun noticed me and pulled me out of the black hat path into white hat-ethical hacking. Thanks to Arjun. Now I am one of the directors of Spyr.

ఎధికల్ హ్యకింగ్, సైబర్ సెక్యూరిటీ పై అవగాహన

యడ్లపాడు, సెప్టెంబర్ 12, ప్రజాతవార్త : నేడు విపరీతంగా పెరిగిపోతున్న టెక్నాలజీకి అనుగుణంగా ప్రతి విద్యార్థి అవగాహన కలిగి ఉండాలని, వీటివలన భవిష్యత్లో ఎంతో ఉపయోగం ఉంటుందని ప్రిన్సిపాల్ డాక్టర్ విఎస్ఆర్ కుమారి పేర్కొన్నారు. మండల పరిధిలోని మిట్టపల్లి మహిళా ఇంజనీరింగ్ కళాశాలలో గురువారం ఎధికల్ హ్యకింగ్

మరియు సైబర్ సెక్యూరిటీకి సంబంధించిన వర్క్‌షాప్ ప్రారంభోత్సవ కార్యక్రమంలో ఆమె ముఖ్యఅతిథిగా విచ్చేసి ప్రసంగించారు. ఈ కార్యక్రమంలో బెంగుళూరుకు చెందిన స్పైరీ టెక్నాలజీస్ డైరెక్టర్ భరత్ కుమార్ విచ్చేసి మొబైల్, ల్యాప్ టాప్, కంప్యూటర్స్ వంటి పరికరాలు హ్యాక్ చేసేందుకు ఉన్న అవకాశాలు, నిరోధించేందుకు మార్గాలపై విద్యార్థులకు అవగాహన కలుగజేయటం జరిగింది. రెండు రోజులు జరిగే కార్యక్రమంలో తొలిరోజు హ్యకింగ్ నిరోధించేందుకు వినియోగించే కాన్బూట్, మోటాస్పైయిట్, ట్రోజన్ టూల్ వంటి వాటిని ప్రయోగపూర్వకంగా తెలియజేశారు. ఈ కార్యక్రమంలో సీఎస్ఈ విభాగాధిపతి జి మంత్రునాయక్ అధ్యాపకులు పాల్గొన్నారు.

సాంకేతిక పరిజ్ఞానంపై పట్టు సాధించాలి

సూచనలు చేస్తున్న భరత్ కుమార్ రెడ్డి

తుమ్మలపాలెం (ప్రతిపాడు): ఆంధ్రప్రదేశ్ వినియోగం విస్తృతంగా పెరిగిన నేపథ్యంలో సాంకేతిక పరిజ్ఞానంపై పట్టు సాధించాలని మిట్టపల్లి ఇంజనీరింగ్ కళాశాలల కార్యదర్శి ఎమ్.బీ.వీ. సత్యనారాయణ అన్నారు. మండలంలోని తుమ్మలపాలెంలోని మహిళా ఇంజనీరింగ్ కళాశాలలో గురువారం 'ఎడికల్ హ్యాకింగ్, సైబర్ సెక్యూరిటీ' అంశంపై కంప్యూటర్స్ విద్యార్థినులకు కార్యశాల ప్రారంభమైంది. ప్రిన్సిపల్ వీ.ఎస్.ఆర్ కుమారి అధ్యక్షతన జరిగిన కార్యక్రమంలో బెంగళూరుకు చెందిన సైరీ టెక్నాలజీస్ డైరెక్టరు భరత్ కుమార్ రెడ్డి పలు అంశాలపై వివరించారు.

THE HANS INDIA

Developed a Web-Application to track Corona featured in National News Paper

Web application developed to spot coronavirus cases

ARTI ADGE

When world was hit by COVID-19, the team Bharath Kumar Reddy Gayam, 25 (entrepreneur and ethical hacker), Seshu Kumar 24 (Founder of Lyfnum), Ganesh Yeruva, 19 and Meghana Allu, 19 (College students) came up with a web application called 'c19shaka' which was designed to spot Covid-19 cases.

The website was designed using Artificial Intelligence for Tracking Covid-19 symptoms this helps a lot for the public to confirm against Covid-19. The pattern of the website was uncomplicated so that it can be easily understood by everyone.

As Bharath Reddy elaborates: "When you visit the web application, at the beginning it requests you to fill the self details. Once you finish entering details then click on Proceed. In the next phase, it solicits to answer 11 questions. These questions are selected from the Indian Council of Medical Research (ICMR) along with World Health Organisation (WHO) that majorly specify distinguishing of corona symptoms. Once you complete answering those questions in the form of Yes or No. The website provides the result with the help of Artificial Intelligence Technology.

The result will be classified into two mechanisms based on the chosen response Low Risk, Medium Risk, High Risk.

If you get the result of Low Risk and Medium Risk the website suggests you take precautions. Safeguard Measures will display at the top horizontal scroll bar with saffron shade.

High-Risk people information will reach out to medical surveillance teams. With the help of c19shaka web application, people can take a test for Corona symptoms from home within two minutes. Based on the website information

heretofore 6371 people attempted this test out of this 42 are critical and it helped them", explains Bharath Reddy.

The app which went live on April 12 has over 26,000+ users so far and requires basic data of the user at the initial step. c19shaka informs users about the potential risk and symptoms through web application contact tracing and equips people with self-assessment tools. It also has a tool for precision tracking of high-risk patients with

nity from Covid-19. It is easy to identify the high-risk ones direct them to the health officials of the respective district with the details of patient's, place and location. The doctors' team can then approach the patient physically and conduct a direct test with kits and taken up early isolation procedure if needed" he adds.

How did the team come up with this idea? "I left Karnataka due to the lockdown and came back to my State Andhra Pradesh. Even though the government was taking care, the corona cases were still growing rapidly. Regularly I used to read newspapers and noticed that many people losing their life. Then, I decided to do something for the country. Then I started a simple AI-based website with the support of my team Seshu Kumar, Ganesh Yeruva, Meghana Allu" concludes Bharath.

Meghana Allu

Covid-19 symptoms.

"We also have tools such as 'self-assessment test for infection mitigation', and 'protect yourself and your community'."

Project C19-RAKSHA to COMBAT COVID-19

<http://www.c19raksha.in>

Due to corona lockdown I left Karnataka and came back to my state AP, Government taking care about everything but the corona cases growing rapidly. Every I watch news people losing their life with no reason? I decided to do something for my country. I started a simple AI based Website, I successfully done this project and my team helped me to take this project into the public.

Project: C19 RAKSHA

C19raksha is a very light weight artificial intelligence-based website for Tracking the COVID-19 symptoms, it doesn't need much internet to open and easy to use, with in 2 mins the result will be out. We made this weapon to Combat COVID-19.

The web application helps to public for self-assessment of the covid-19 risks. It will enable the users to know the risk level by staying home and they take necessary steps getting isolated, quarantine, medial-check-ups, social distance to cure and prevent the spread of c19.

Have to furnish answers to 11 questions in application form, which is available at <https://www.c19raksha.in> the questions can be answered in yes/no format.

The application has 11 questions on symptomatic and asymptomatic behavior, which is part of covid-19 infection. The questions were derived from the guidelines of WHO and ICMR.

People who have symptomatic and asymptomatic behavior can personally check their health condition with the web application. After entering the details in the yes/no format, if most answers are "yes" the applicant's information is forwarded to the Medical and Health Department through mail and the officials will take further measures to find out the applicant faces risk of coronavirus.

The application collects the basic information of the user to track back, 11 questions contain whether the applicant has fever, headache, travel history, difficult to breath, etc., so far, the total of 27,500 people had utilized the web application.

TECH WIZARD

Fighting corona with technology

Gayam Bharath Kumar designed a web application containing questions on WHO and ICMR specifications for identifying corona symptoms

Priyanka Pasupuleti

As a lot of people are losing their lives in the pandemic, Gayam Bharath Kumar decided to lend a helping hand. The 26-year-old tech genius from Gunthar designed a website named C19 Raksha along with his team. This gives valuable information and helps people.

Bharath, who won many awards in Ethical Hacking, was first rejected by many colleges due to low academic grades. But, Bharath moved on with a positive mind and started focusing on hacking. "It all started in Class IX. I used to admire my brother-in-law, who is a software engineer, and I always wanted to do something which provides me with challenges. I heard about Ethical Hacking and I found it interesting. I started to research on it and that's how my journey started," says Bharath, who is now running his own company.

Bharath entered the Limca Book of Records for a non-stop cybersecurity marathon and was successful in pulling it through. Besides in 2019, he has also been the recipient of the Global Young Leaders Fellowship and Karmaveer Chakra Award, India Star Youth Icon Award, National Youth Icon Award and Rashtriya Gaurav Samman to name a few.

Bharath believes technology will help people in taking smart moves in controlling the virus. Corona symptoms can be tested at home by using C19 Raksha. The team of three — Bharath Gayam, Seshu Kumar, Ganesh Yerru — designed the web application to make it available to people all over India and they are working on this project with 12 volunteers. It answers 12 questions in just 2 minutes of time.

This web application contains 12 symptomatic and asymptomatic questions, including "WHO" and "ICMR" specifications for identifying corona symptoms. As soon as these questions are answered in the form of Yes / No, this Artificial Intelligence technology will result in characterisation in three ways: "Low Risk", "Medium Risk", "High Risk" in just two seconds.

The people who got "Low risk" and "Medium risk", refer to the precautions in the website. "High Risk" people information will reach out to Medical Surveillance teams. With this software, people can check for corona symptoms from home. No need to panic. Till now 6,371 people attempted this test. All you have to do is log into the website <http://www.c19raksha.in>.

YOUTH DEVELOPED A WEAPON TO COMBAT C19

How does it work?

C19raksha is a very light weight artificial intelligence-based website for Tracking the COVID-19 symptoms, it doesn't need much internet to open and easy to use, with in 2 min the result will be out. We made this weapon to Combat COVID-19.

The web application helps to public for self-assessment of the covid-19 risks. It will enable the users to know the risk level by staying home and they take necessary steps getting isolated, quarantine, medical-check-ups, social distance to cure and prevent the spread of c19.

Have to furnish answers to 11 questions in application form, which is available at <https://www.c19raksha.in> the questions can be answered in yes/no format.

The application has 11 questions on symptomatic and asymptomatic behaviour, which is part of covid-19 infection. The questions were derived from the guidelines of WHO and ICMR.

National Information Security council and Chapter Leader of Karnataka state from Hackers-Day organization and Associate Member of National Cyber Safety and Security Standards Organization and Youth ambassador of international youth society, Andhra Pradesh State secretary from National youth council of india. As an Ethical hacker fight with cyber-criminals to prevent real-time cyber-crimes and he was featured in various print Media and magazine. he trained many individuals directly through various seminars such as Educational Sectors (University's & Colleges) and more than many personally through online platform. On ethical hacking, career guidance, Cyber Security, he found multiple security flaws on various web servers and helped the organizations to patch vulnerabilities. he maintains multiple active social media groups to help people to resolve and defend fraudulent activities and cyber-attacks in their life.

AWARDS AND HONORS:

- 1) Received LIMCA BOOK OF RECORDS award in 2017 for (50-hrs Non-stop Cyber Security Marathon with no sleep). Instituted by Lima book of records.
- 2) Received GLOBAL YOUNG LEADERS FELLOWSHIP AND KARMAVEER CHAKRA AWARD 2019 instituted by ICONGO and UN at IIT Delhi.
- 3) INDIA STAR YOUTH ICON AWARD 2019 instituted by India Star Awards, instituted by india star book of records.
- 4) Received NATIONAL YOUTH ICON AWARD 2019 instituted by IVC (international youth committee) in World youth Summit at New Delhi.
- 5) Received RASHTRIVA GAURAV SAMMAN 2019 initiated by International Youth Society & National youth Awardees Federation of india at Andhra bhavan.
- 6) Received NATIONAL BUSINESS ACHIEVER 2019 instituted by International Youth Society & National youth Awardees Federation of india at Andhra bhavan.
- 7) Received EXTRAORDINARY TALENT AWARD 2019 instituted by Guinness World Records.
- 8) Received Steering Committee Person Award 2020 from UNITED-CON international conference on Cyber Space 2020 at New Delhi.

Ethical Hacking Workshop in Chalapathi Institute of Engineering And Technology

It is a 3 Day Workshop on Ethical Hacking workshop held in Chalapathi Institute of Engineering and Technology 2023

Cyber Crime Investigation Training for CID Police Officers - Government of AP -

A four-day training program on Cyber Hygiene was conducted for CID Police officers of Andhra Pradesh at the headquarters of the AP Director General of Police in Mangalagiri. This event was attended by high-ranking CID officers, making it a valuable experience for the Crime Investigation Department (CID) of the Andhra Pradesh Police.

During the program, there was an insightful and engaging meeting with Mr. Amit Bardar, an esteemed IPS officer and the Superintendent of Police for the Crime Investigation Department in Andhra Pradesh. This interaction provided an excellent opportunity for dialogue and exchange of ideas among all the CID officers in attendance.

**Received Appreciation from Additional Director General of
Police, Senior IPS officer N Sanjay – Head of CID.
AP - Government.**

Training for DSP Police officers of AP on social media Cyber Crime Solving

A four-day training program on Social Media cyber-crime solving was conducted for DSP Police officers of Andhra Pradesh at the Anantapur police training academy. This event was attended by high-ranking DSP officers, making it a valuable experience for the Deputy Superintendent of Police (DSP) of the Andhra Pradesh Police.

During the program, interaction provided an excellent opportunity for dialogue and exchange of ideas among all the DSP officers in attendance.
