

Master Programmer Fundamentals Bootcamp

"The Architect's Foundation: C, C++, Java & Kotlin Basics"

Are you struggling to bridge the gap between college theory and industry-level coding? This intensive 6-8 week bootcamp builds a **rock-solid foundation** in programming logic, ensuring you are prepared for technical interviews and ready to transition into any modern programming role.

Taught by a 12+ year industry veteran and former Android Architect.

Program Structure & Investment

Detail	Specification	Value Proposition
Duration	6-8 Weeks (Intensive)	Fast-tracked learning for job market readiness.
Total Sessions	30-40 Core Sessions	High-density learning (90 Minutes Each).
Program Fee	₹18,000/- (One-Time)	Premium investment for Architect-level instruction and unparalleled practical exposure.

Unique Learning Methodology

The course is structured around **20 essential C language fundamentals**, but you will **not** just learn C. Our unique **Multi-Language Demo Approach** ensures you master the *logic* by seeing every concept applied across **C, C++, Java, and Kotlin**.

Each Session Delivers:

- **Problem Statement:** Defines a real-world coding challenge.
- **Concept as Solution & Theory:** Deep-dive into the core programming logic.
- **Practical Programming Demo:** Immediate application across multiple languages.
- **Homework:** Practice to solidify understanding.

Exceptional Industry-Focused Value-Adds

We go beyond the screen to give you real-world exposure and mentorship:

Feature	Frequency	Professional Value
Weekly Review	Every Friday	Mandatory assignment submission, detailed review, and focused Doubt-Solving Sessions .
Exclusive Offline Meetup	2 Sessions Monthly	Dedicated, in-person workshops (2 hours each) for networking and personalized feedback.
Industry Experts	2 Guest Lectures Monthly	Learn directly from currently working professionals on trending topics and career pathways.
Real-World Exposure	1 Industry Visit	Gain firsthand exposure to a professional work environment.
Certification	Final Assignment Completion	Receive a Certificate of Completion, validating your expertise in programming fundamentals.

Who Should Enroll?

College Students (BE/BTech/BCA/MCA) & Fresh Graduates who seek to build immediate, job-ready programming competence under the mentorship of an experienced industry Architect.

Seats are limited! Enroll today to secure your spot.
