

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic visual effect.

FRACTION

Presented By: Priyanshi Singhal

What is Fraction ?

It is a mathematical way of represents a parts of a whole like $\frac{3}{4}$ (three out of four parts)

Numerator

- It indicating how many parts are taken.

Denominator

- It indicating the total number of the equal parts.

Fraction Bar

- The line separating the numerator and denominator also represent division.

What fraction of the shape is shaded?

$$\frac{1}{2}$$

$$\frac{3}{8}$$

Add the fraction

$$\frac{5}{11} + \frac{4}{11} = \frac{5+4}{11} = \frac{9}{11}$$

The background features abstract, overlapping green geometric shapes, primarily triangles and polygons, in various shades of green, creating a modern and dynamic visual effect. The shapes are layered, with some appearing more prominent than others, and they extend from the edges of the frame towards the center.

THANK YOU
