

Class 11 & 12 Mathematics Tuition | Engineering Mathematics Coaching

About the Service

I provide personalised 1-to-1 Mathematics tuition for Class 11 and 12 students and engineering aspirants, with a strong focus on concept clarity and exam confidence. As an IITian with over 12 years of teaching experience, I understand the academic pressure students face and work closely with them to make Mathematics logical, structured, and manageable.

How This Helps Your Child

- Builds strong fundamentals instead of memorising formulas
- Reduces fear and anxiety around Mathematics
- Improves confidence, accuracy, and consistency
- Develops independent thinking and step-by-step problem solving
- Effective preparation for boards and competitive exams

Teaching Approach

- Patient, calm, and child-centric teaching style
- Concepts explained from basic to advanced level
- Personal attention based on the student's learning pace
- Regular doubt-clearing and revision
- Exam-oriented practice with focus on common mistakes

Class Format

- One-to-one personalised tuition
- Online sessions (preferred) / Offline (location-based)
- Flexible timings with limited slots for quality focus

Why Parents Choose Me

- IITian educator with 12+ years of teaching and mentoring experience
- Strong understanding of board and competitive exam requirements
- Disciplined yet friendly approach that students are comfortable with
- Focus on long-term academic strength, not shortcuts

Expected Outcomes

- Clear understanding of mathematical concepts
- Increased confidence in exams
- Steady improvement in academic performance
- Strong foundation for engineering and higher studies
