

## Sutras for Astro Predictions

Sutra 6.1: If the 6th house itself is strong or active, the person's life environment naturally involves competition and struggle. If the 6th house lord is strong, the themes of the 6th house become strongly expressed in the particular area of life represented by the house where that lord is placed.

Sutra 6.2: The lord of a house is usually more important than the house itself. Because the lord controls the results of that house.

This is a key concept that most students get confused about. Most astrologers pay more attention to the house lord because it activates and manages the house's results.

House = department

Planet in house = officer

House lord = minister

### Key Concept and House lord analysis

When analysing a house, consider three elements: house, occupying planet, house lord.

The house shows area of life.

Planet activates it.

House lord controls results.

If planet strong but lord weak → active but unstable results.

If planet weak but lord strong → stable and managed results.

Best case → both strong.

Sutra 6.3: Strong planet activates house strongly. House lord governs outcomes.

Sutra 6.4: Planet activates. Lord controls direction.

Sutra 6.5: Sequence → P, L, A, K, C.
