Why learn Guitar

Guitar is a very pleasant instrument, Learning guitar not only develops your guitar playing skill but also helps you Release stress, helps you concentrate and also develop your thinking and analyzing skills.

About my self

My name is Tahan Chen. I have been playing guitar for 10+ years and composing for 6+ years. I play acoustic guitar, electric guitar, and bass guitar. I have been performing with various bands and have been playing live for 6+ years. In addition to guitar, I have a diploma in sound engineering and music technology. I have composed background music for many local movies and videos.

Why learn from me?

I've been playing guitar for more than a decade and teaching for 6 years, helping 20+ students reach their goals. My approach adapts to each student — no one-size-fits-all. I push you to grow, teach core techniques quickly (often within 6 months), and aim for lasting ability to play any song.
