GPA / OGPA:

A performance of a student is evaluated with Grade Point Average (GPA) in a semester, and Overall Grade Point Average (OGPA) upon completion of all the completed semesters in a course period. GPA / OGPA is calculated based on grades obtained in all courses, except audit courses and courses in which satisfactory grade(s) is awarded, registered in the particular semester / all semester respective.

$$\text{GPA} = \frac{\text{Point secured in the semester}}{\text{Credits registered in the semester, excluding audit and S grade courses}}$$

$$\text{OGPA} = \frac{\text{Cumulative points secured in all passed courses (A - D grade)}}{\text{Cumulative earned credits, excluding S grade courses}}$$

NOTE:

- **Percentage to GPA / OGPA conversion:** As per academic regulation 49 (d), the percentage (%) of marks may be calculated by multiplying OGPA / GPA with factor '10'.
- F grade course is to be repeated.
- [*] indicates course Repeated.
