GRAPHIC SEED ACADEMY

Build Your Creative Career With Us

At Graphic Seed Academy, learning is personal, practical, and built for the real industry. Led by trainers with 15+ years of experience — including Adobe & Autodesk-certified instructors — we specialise in Graphic Design, Product Design, and Motion Design.

Our faculty brings a unique edge: years of hands-on experience in printing, now translated into modern design and product design software. That real-world journey is what inspired the foundation of Graphic Seed Academy.

How We Teach

- **14+ professional software tools** taught across our courses
- **Online & Offline** batches to suit your schedule
- **Small batches of only 3–5 students**, aged 16+, so every student gets individual attention
- **Structured, interactive, and 100% practical** classes — not just theory
- **Courses tailored to you** — we adapt our teaching to how you learn best
