NEW

Student Success Story

“Before I joined Galvanize, I tried studying for the GRE by myself using websites and books. Soon I found that I was lagging behind in my preparation and I sorely needed coaching - In fact not just any ordinary coaching, but someone who could personally guide me to study in a disciplined manner and answer all my doubts. I tried looking for such an institute but I couldn't find any...and individual tutors were too expensive as they charged by the hour, so I almost gave up my search :-(

One day a friend told me about Galvanize Test Prep. I contacted them and their Counselor explained to me that Galvanize would not merely “teach the subject”, but would ensure that the students “learned the subject”. I felt this was a unique and also correct approach, so I decided to join. Since I had only 2 months left for my GRE, I enrolled for their Fast Track course.

Within a few days of joining I knew that I took the right decision. My Coaches at Galvanize gave me a Daily Plan for my GRE preparation and also monitored whether I was sticking to the plan. Both my Quant Coach as well as my Verbal Coach were very dedicated and sincere, and they took a lot of effort to motivate me throughout my preparation. They were also very passionate about their subjects and would explain the concepts clearly and patiently so that I could understand properly. They would clear my doubts promptly, so that I could move quickly from one topic to the next. Their solid strategies and step-by-step techniques gave me confidence with even the more difficult questions on the test. Though I lived thousands of miles away, the Live Virtual Classes and constant online practice made it feel like my Coaches were right next to me!

Thanks to Galvanize Test Prep, I boosted my GRE score by 19 points! I am now studying in Texas, USA and I express my heartfelt gratitude to Galvanize. You guys rock!
