

SAP Live Training:

We are one of the most rapidly developing IT consulting organization offering a composite portfolio of IT solutions in ERP Solutions. We have a significant presence in providing security solutions and implementation for a rapidly increasing customer base in this segment of IT.

The proportionate combination of theoretical and practical sessions is aptly complemented by regular workshops on industry trends and emerging technologies. To hammer the habit of self-learning, the students are also provided with course material and CDs, developed by MS Infotech Solution technical team. Students enrolled in the career courses are groomed to become professionals through Excella core Training Methodology. These sessions are aimed at making the students Industry-Ready-Professional by imparting few crucial components like CV preparation, interview skills and soft skill development, body language & etiquettes, which are vital for them to be competitive in the job market. MS Infotech Solution initiated a unique idea to impart the training by all the industry experts to create a platform where students get the opportunity to interact with vastly experienced industry professionals and gain valuable inputs from them.

Students, after completion of the entire training, will undergo a screening followed by the Mock interview and an Examination. Thus a student can be easily judged how fast he/she can appear at Interview and come out with flying colors. Project is one of the vital parts in the entire training methodology. This particular project determines a student's knowledge and credibility in their professional career. Students can get to know the real integration part in order to crack an interview.

Corporate / Industrial Training:
