IT Infrastructure Management:

MS Infotech Solution specializes in design, development, construction and services related to IT focused mission critical infrastructures with a broad range of project expertise.

MS Infotech Solution has two distinct verticals in IT Infrastructure domain, namely a. IT Infrastructure Design & Build b. Managed Service.

We specialize in planning, designing, engineering, constructing, monitoring and maintaining data centers, computer rooms and server rooms that integrate, 'best-of-breed', critical infrastructure technologies. The result is an always available, scalable, redundant, fault-tolerant, manageable, and maintainable data center environment.

BPO / IT Enabled Services:

MS Infotech Solution has a strong Process Management Group, with considerable expertise in process definition, transition, migration, process management and replication. This strength coupled with MS Infotech Solution system integration capability and requisite domain knowledge enables MS Infotech Solution to set up, implement and successfully manage customized Business Processes at distributed locations. A key factor which has also contributed to MS Infotech Solution success is its resourcing and in-house training capability. MS Infotech Solution is also started and prominent player in the BPO/ITES field in the following area:

Electronic Document Management System (EDMS)
Enrolment & Citizen Centric Services
Data Digitization & Migration Services
Help Desk and Remote Management
Transaction Processing
