Zone STARTUPS | Ind

SCHOOL OF CODE

Code • Develop • Startup.

Overview

Zone School of Code is an initiative by Zone Startups India to generate programming and coding talent for the startup industry. It prepares students to achieve cutting edge quality to stand out from the rest of the industry's programming talent.

Need

The startup industry is currently in heavy demand of good programmers, developers, devops and testers. Zone School of Code has joined hands with corporates, accelerators and startups to study industry trends and demands.

Offering

A typical program at the school would consist of 40-100 hrs of indepth instructor led mentoring and teaching after which the students are enrolled in a 2-month internship at Zone Startups India accelerator program. It partners with various student networks, colleges to create a strong pool of technology talent.
