

## Exclusive Advance Level Lighting Course

This course is an exclusive course for the people who is looking to learn the advance lighting for portraits , fashion , product , food or any type of photography . This will be **1to1** or you can say personal **coaching** so we can give our **100% focus on you** and you can ask any questions any time and learn the **quality knowledge**.

This is advance level course, so you can join only if you are 100% clear with the basics of camera and basics of photography. We still will go through your basics in the first lecture to be sure that you knows the basics clearly. We will teach you how to master the flashes and studio strobes, allowing you to become increasingly creative with the lighting and we also **will cover the retouching** part to make sure that you get 100% result with your images . **We will also hire professional model for your practice session under Mr Varun Patel's Guidance .**
