# Who can take this?

- Any one who need to go into the SAP domain as an experienced candidate can take this.

- Fresher's can take this for extended knowledge about SAP Real time environments.

- Final Year students can take a challenging project with SAP and excel in your way.

- SAP is not restricted to anyone, everyone can avail this course and project.

# What is a Project?

- Projects reflects a real time scenario based on the real time requirements of the industry.

- Project/Scenario gives you a clear idea of 'what are the company requirements look like'.

- Projects reveals the various methodologies and phases that is followed by the industry.

- Here we will see a set of 20 real time scenarios to study and to work out.

# Diff b/t Project & Scenario

- No one can teach you or give you with a real time project as it is an impossible one. *(So don't search for any projects for your career placement)*

- Scenarios can be given and are highly useful for a good career. *(So prefer Real Time Scenarios than a Project)*

- Fresher's Seeking for Jobs in SAP can go for both Projects & Scenarios. *(You can understand the depth of coding in there if it is a good project)*

- Projects suits for final year students who wants to have a successful career. *(Less Number of students prefer to do project in SAP)*

# What are the benefits?

- You will be the one who is confidant enough to face the interviewer. *(because of the scenarios given to you)*

- The main part of a successful jobseeker is his CV and after the scenarios, your CV is filled with known sections everywhere. (1 in 100 prepares his /her own CV)

- This is an age of Science & Technology. Your profile will be created in best online portal that fits to the Recruiter's Mood.

- You will be uniquely identified from the one who claims that he know 100% in ABAP.

# Where it takes me?

- It assures you with a very best career opportunities and would possibly get recruited within a considerable time.

- It gives you an edge over your fellow Job seekers with a qualified CV.

- It gives you a relaxing atmosphere and you feel immensely secured while hunting for a job since you hold a firm support.

- It gives you a steady understanding about the corporate structure.

# About the Course

- The Course consists of 20 unique Real Time Scenarios. Scenario PDFs will be provided.

- The mode of course is online.

- Maximum duration of the course will be 15 days.

- CV Preparation is done at the end of the course.
