Fund Dreams India is a crowd-funding platform for personal causes and life events like medical bills, volunteer trips, school tuition costs etc.

Fund Dreams India offers personal fundraising websites that are free to create, customizable, and feature easy-to-use sharing tools so that you can quickly spread the word about your fundraiser.

Of course, you could sell wrapping paper door-to-door, bake hundreds of cookies, and post leaflets for hours.

But your time is valuable! Try raising money with Fund Dreams India for any of your fundraising ideas.
