

JAVA WITH ANDROID TRAINING

Learn *Java and Android Application Development with coding*. Any Computer literate can join this course, but it is especially helpful for those who are looking for career in *Software Development*,

B.Tech / B.E. / B.Sc (IT / Computer) / M.Sc (IT / Computer) / MCA students can get the most out of it.

What is Java, Architecture, Components

- *Development Environment setup,*
- *Design and Development concept,*
- *Knowing the Components and Usage,*
- *Write your app with code hands-on,*
- *How to run*
- *Constrains and Tricks.*
- *Idea generation*

On completion of the course, one will have a clear idea about the Java and Android *Development concepts*. Everyone will be able to setup the Tools required to start the Java and Android Development *independently* and will be able to *develop* their own applications.
