

Why OASIS?

❖ **Proven Track Record Faculty:** Faculty comes from premier institutes like the IITs, NITs, AIIMS and from other institutions of repute with their excellent academic as well as pedagogic proven track record.

❖ **Small Batch Size (Tutorials):** Small batch size consisting of only 35 students in each batch multiplies the productivity inviting individual attention over the students. It also enhances the performance of the students and helps in clearing their doubts.

❖ **CBSE Syllabus First:** We perceive NCERT – the BIBLE for learning and clearing the fundamentals. Thus, we try to make our students drive in the concept of studying NCERT again and again, because besides laying a strong foundation, it also helps clear the doubts thereby strengthening the fundamentals and bringing in clarity, which is essential to come out with flying colours in any competitive examination. We focus on 'Conceptual Clarity' Rather than 'Rote Learning'.

❖ **Parent Teacher Meeting (PTM):** Parents are free to interact with the faculties and are updated with the real-time attendance, and the performance of their wards. We have a specific cell that keeps the updated successive performance reports of the students. If parents seek, they can meet our Admin staff and get the performance calendar of their wards.

❖ **Destined Mock Test Papers:** Mock Tests are meticulously designed to put the students into examination temper in order to ensure their Real-High score in Actual-Exam ultimately ensuring their success.

❖ **Doubt Clearing Cell:** We conduct 'Special Doubt Classes' after the completion of each topic to overview the conceptual clarity of the students. The peculiarity with our doubt classes is – the concerned regular SUBJECT TEACHER conducts the classes which is a rare practice with us only.

❖ **Excellent Results:** OASISians have been outperforming for over two decades in Medical as well as Engineering Entrance Exams like AIPMT/AIIMS/IITs & Olympiads. This is the testimonial of its excellence one can trust on.

❖ **Research-Oriented Study Materials:** Study materials are designed in line with clearing the concepts of students in order to lay strong foundation not for Medical & Engineering Entrances but also for their future ventures.

❖ **Score Enhancement Classes:** Average students are trained to attain the level of outperformers, who later crack National Level Entrance Exams; and this is accomplished by sharpening their Intelligent Quotients (IQs).

❖ **Flawless Administration:** No compromise on the front of discipline whether it is for students, teachers or admin staff. Strict administration is laid down for everyone to bring transparency in collective performance of the organisation.

v Motivational Environment: From a certain time-interval 'Motivational Gurus' take motivational sessions to charge-up students for focused learning and keeping their tempo alive that work wonders in improving their performances which is shown in our results.

❖ **Scientific Time Management:** Focus on finishing entire syllabus extensively in time thereby saving sufficient time for revision, tests and doubt clearing sessions. This can be done through scientific time management techniques only.

❖ **Individual Performance Evaluation:** We review the performance of each student, enlist his/her weaknesses and eliminate them painstakingly. And also provide them special inputs to elevate their performance at par with the outperformers.
