Databases and SQL Training

1. SQL

   - Databases –

     - Creating,
     - Managing,
     - Backup,
     - Restore

   - SQL Server –

     - UI Interface
     - Configurations

   - Managing Databases

   - Tables –

     - Create
     - Insert
     - Update
     - Delete
     - Manage

   - Views–

     - Create
     - Insert
     - Update
     - Delete
     - Manage
     - Advantages
     - Disadvantages

   - Keys and Constraints–

- Primary key
- Foreign key
- Candidate Key
- Composite Key
- Null Constraint

➢ Stored Procedures

➢ Functions – User Defined/ String/System Functions/Date Functions

➢ IF Else , Case, While statements

➢ Different versions of SQL

➢ Parameters and Datatypes

➢ Cursors

➢ Triggers

➢ Statements

➢ Operators

➢ Optimization techniques

➢ Database Diagrams
