HIS EXPERTISE

WE DO MORE THAN JUST COACH

The role of a teacher goes beyond the teaching and imparting knowledge. This is especially true for the faculty that interacts with students at Std.XI and XII levels. These are critical years for the students, yet the very years when lack of appropriate guidance and mentorship can leave a young students directionless.

IIT Degree

THE REAL VALUE

We look towards IIT-degree from the other side of the table, and since we are coaching to our students after achieving it, hence we not only coach them for outstanding performance in IIT and Board exams, but also not just to be an ordinary brick in the wall. This close mentoring of our students enables us to accurately asses and guides the students towards the right career where he/she can truly shine.

Science Lab

No Rat Race

Have you ever pondered that why today most of the parents have to keep on reminding their kids to study, and leave the fancy gadgets, which pulls them away from their **REAL ACADEMICS**, yet the kids keep themselves involved in those distractions?

Simply, Because the kids Lack interest in the way they Learn.

The way we live has changed, but the way we study (the normal method from textbook) has yet not changed.

We at Scholar's want to be the Change Agents...

Let's have "PRACTICAL BASED LEARNING"

Do you want to follow a rat race or wish to join the change.

“Tell me and I forget.
Teach me
and I remember.
Involve me and I learn.”

Children's are not vessels to be filled but lamps to be lit. With this motto scholar's academy functions, An act through which all doubts in our mind even without inquiring are automatically removed. In whose proximity our desire for goal increases by itself and we satiate us by achieving our goal that every student “Love his education” and not run away from it.

In support to this we had introduced 300+ self generated working models of physics, chemistry, biology and mathematics and thereby emphasizing PRACTICAL BASED LEARNING.

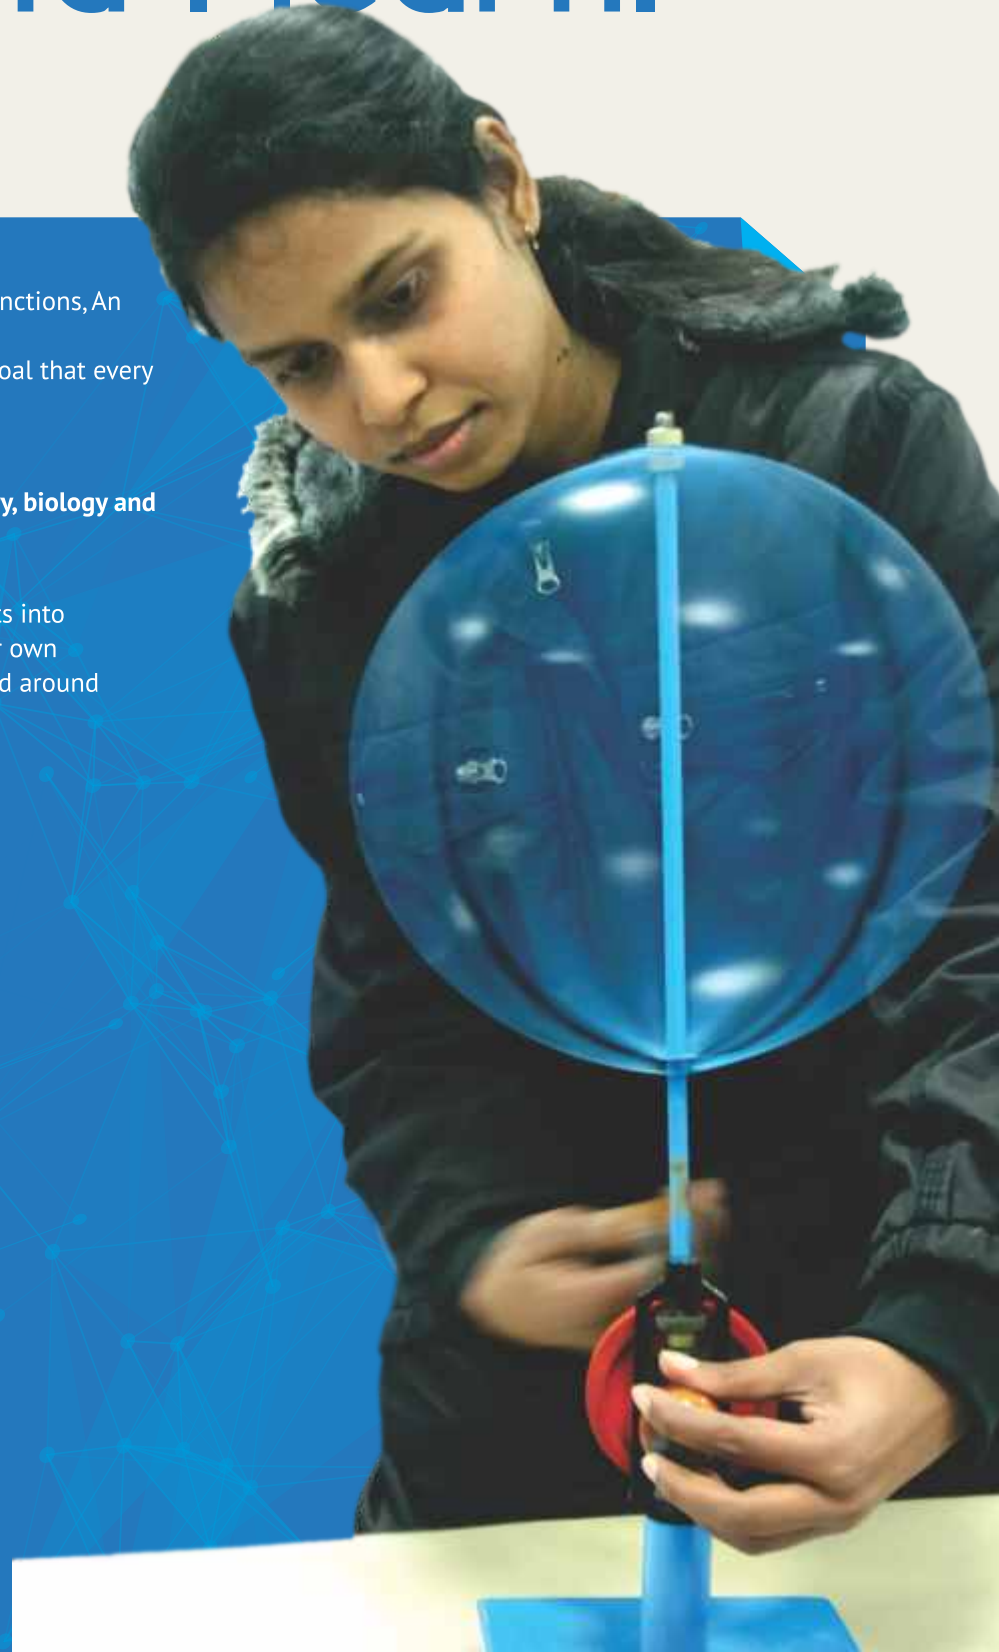

These Scientific Experiments and Models have been formed by breaking the scientific concepts into innovative experiments. Most of These experiments can also be replicated by students in their own environment. This gives them a fascinating & intense learning that they can apply to the world around them in a practical way.

Knowledge is pure and transferable just need srjna's techniques to evolve scholars.

Meaning:

- 2: May God Nourish us Both,
- 3: May we Work Together with Energy and Vigour,
