

**CAREER COURSES**

To provide students an unbeatable edge, Jetking’s learning programmes are designed in a unique industry-first structure which sets them apart and ensures job ready students thus bestowing 'The Jetking Advantage' to them.

Academic collaborations with Microsoft, Redhat-Linux, Heathkit, Watchguard and Prometric ensures that Jetking certifications are at par with the international curricula.

Our industry-pioneering courses comprises of theory and practical sessions, with greater focus on active participation popularly known as 'SmartLab Plus', which equips these students with a critical domain knowledge that is technical yet practical.

The unique training modules also equip students with soft skills to help them face the multi-faceted challenges of the corporate world and create better corporate citizens of tomorrow.

**100% JOB GUARANTEE**

At Jetking, we ensure you lead a better life when after you've graduated. A dedicated team of over 100 placement officers help you to land a job. And it's not any job. The top I.T companies trust and recruit Jetking students.

For successful entry into your first job, we also prepare you by helping you create an effective resume and build your confidence for interviews. So that you get an edge over other applicants.
