

INSPIRE IMAGINE INVENT

design your career

We are not just a finest institution of Graphic Design but a school of creative thought and a powerhouse of imagination.

Hey there!

We are sure that you would become a well-rounded graphic designer.

We have various well-rounded courses to teach you all the different elements of the design process and to show you how they work together, using industry standard design programs.

Can I really learn to be a graphic designer?

Our courses have been refined over the years in order for you to get the most out of every single hour. The combination of learning the programs, understanding the principles of design and working on typical briefs to realistic industry deadlines in a studio environment has been extremely successful in preparing students for their first industry role.

Facilities

Our dedicated computer lab houses iMac computer stations as well as laptop docking stations, accommodating high end Macintosh and Windows computers comprising of top end software used in interactive, UI, UX, and print.

The labs are accessible for the students majoring in design for 12 hours a day and 6 days a week. The lab is competently staffed.

Our lab is equipped with additional deigning tools like, WACOM digital pens, tablets, multiple scanners & printers. Students registering for the design course are permitted to use the lab and the printers for absolutely NO CHARGE as long as it's related to the student's project!

Our lecturers

Our extremely talented graphic designers with years of experience in industry are here to impart knowledge with you. They are also some of the most friendly, patient and passionate people you could hope to meet.

Our students

It takes commitment and courage to study something new, especially if you haven't been inside a classroom for a few years. Please don't worry, your classmates, like you, will be passionate about design and committed to changing their lives for the better. Many will become lifelong friends and invaluable contacts in the industry.
