TRAINING

From childhood initially from my father Mr. Ranjan Ganguly , then from 2004 onwards till now pursuing my training in Indian classical ,light music & voice modulation from my guruji Shri Mihir Mukherjee (from Rampur Shezwan & Indore Gharana).

2011 - 2012 Trained in Keyboard, Synthesizer instrument, also piano from Mr. Soumen Dey.

I have been singing since childhood, a genetic gift passed over to me from my father who is a very talented singer of his time and was professionally into it, and I shall be grateful and obliged to him forever to have introduced me at a very early age to proper music theoretically and practically also to the greatness and the legacy of the Great Mohammad Rafi Sahab, the versatile genius who is my idol and main source of inspiration forever ,also other legends like Kishore Kumar, Manna Dey, Lata Mangeshkar, Asha Bhosle etc. Since from that time by listening to these icons of music and legendary composers I started upgrading the artist in myself. I began training and now I have evolved as a professional singer & musician and music is my ultimate passion devotion worship and main profession. I have been performing in India and abroad for many years now, I am a versatile singer comfortable with most forms of music and try my best to do justice to as many genres of music and to the various types of songs I perform, thanks to my guruji Shri Mihir Mukherjee, who is teaching me Indian classical, light music and proper voice modulation training for more than 7 years now and I am evolving gradually into a more trained and polished singer each day. Apart from being a vocalist, I am also professionally into music compositions, have already done jingles for national television, presently looking forward into movie compositions, have some ready compositions too, in addition to this I am capable of doing musical arrangements and music programming and sound editing. I am professionally creating karaoke sound tracks of various types of songs for myself and many leading singers and musicians in India and abroad for last 6 years now and also doing various musical arrangements in my home studio setup. I am already equipped with a huge karaoke database which gives me the advantage to choose various types and genres of songs to sing in my shows including my co singing partner for his, her solos and our duets and this eventually adds more entertainment value to the show and to the audience.
