

Syllabus:

The NEW SAT (MATH) General Test Starting 2016

Format of Math Exam

The SAT Math Test includes two sections and a total of 58 questions. In the first math section calculators are not permitted, there are a total of 20 questions and you have 25 minutes to complete the no-calculator section. Here is a summary of the two sections:

Section	Number of Questions	Amount of Time	Amount of Time Per Question
No-Calculator Section	20 questions	25 minutes	1.25 minutes
Calculator Section	38 questions	55 minutes	1.45 minutes

Topics

There are four main content areas covered by the Math Test. Here is a breakdown of the topics and number of questions in each content area:

Content Area	Topics Covered	Calculator Questions	No-Calculator Questions
Heart of Algebra	Fundamental concepts in algebra involving linear equations and inequalities	11	8
Problem Solving and Data Analysis	Interpreting qualitative and quantitative data, analyzing relationships	17	0
Passport to Advanced Math	More advanced concepts in algebra, including quadratic and higher-order equations	7	9
Additional Topics in Math	Geometry, trigonometry, complex numbers	3	3
