Gujilish

Learn English from **BASIC**

Gujlish is a basic English course being designed exclusively for those aspirants who have not been able to study in English medium schools or have left their studies long back. Gujlish gives you an entire idea of English language, which you probably missed out to study at the basic level.. the course title itself reveals that it has been made easier to understand from one language to other.

It not only enhances your knowledge but also strengthens your skills and brushes them up to speak effectively in front of anyone. Gujlish course has been designed bilingually to create curiosity to study further. It has been designed in a simpler manner to be understood at any essential level.

Gujlish course covers the Basic English level of the language which a student studies in the primary level in the school. It has been designed to make the language easier and adoptable at a later stage. It is the first ladder to be climbed in the success journey of excelling in English Language.

It covers :
