Radical Technologies has a group of highly experienced and qualified faculties, who are always dedicated towards improving the students' knowledge and make them learn more from their experiences. The faculties here are always concerned about all round development of students. The training provided by them is not only theoretical, but special measures are taken by them to make students get their implementations too. The labs are loaded with servers such as Sun Sparc servers, IBM Power 4 & Power 5 series servers, HP-UX servers, Virtualization capable servers, Sun multipack storage & manymore. Using these students are taught whatever the best they could be. The teaching faculties provided are well experienced corporate trainers from well known MNCs. The Faculties apart from their normal duties of delivering lectures are conducting practicals based on real time scenarios from their world of experience.
