

WOMEN'S

THE SUB-BRANDS

## HERITAGE

the heritage collection is the purest expression of what BR stands for. grounded in our brand's DNA of authentic military dress combined with modern day luxury. we move now to a **100% sustainable luxury** collection, with no exceptions.

in spring 21, we will focus on recycled yarns, deadstock fabrics and leather skins, vegetable dyes and cactus leather. the palette is inspired by such sustainable colors with the knowledge we will have some variance with our naturally dyed pieces.

# HERITAGE

With a lifelong mission of giving back to the environment and curbing everything that is hazardous this fabric collection is aimed at changing as well as contributing to a better world. The classic style with a highlight of the modern day luxury is what rules the silhouettes of this particular story. Focusing on the spring colors and everything environment friendly the fabrics in this collection define casual, as well as sustainable luxury.
