

I always felt that local is more accessible / approachable, but my assumptions were proved wrong by Kosha Mehta. Kosha, was the right person to step in at the right time.

Her first visit to Baroda as a representative of the Head office was enough to build the trust and strengthen the bond with the

Franchise schools. Kosha, is a fantastic support to the preschools. In fact it was only after Kosha taking charge, a lot of other pending things at Baroda SERRA center started falling in place. Her enriched experience in the field of Early Years Learning actually gave a lot of insight to me and my team during the training programmes as well. Lastly I would just like to say that Kosha is in-fact an asset to preschools. Thanks Kosha you were outstanding.
