Lo Shu Grid Basics

Story behind loshu Grid

Many Years before King WO of China was worried about the natural disaster, rain and flood bothering his kingdom. He approached a saint named Loshu to praise GOD and derive out the solution of water disaster. Saint loshu prayed to GOD for many years and one day, He saw a tortoise on the river water. He saw some points on the shell of tortoise and counts it as a number. He made one grid out of it and named it as a Prosperity 15 Grid, because the total of every side of the Grid was 15. After the preparation of Grid water disaster stopped. King WO was so happy that he named that Grid as Loshu Grid.

Then Old saints of China Including Confucius or Master Kong developed Many Theories out of this Grid Like The eight Trigram Pa Kua Method, Fangsui Vastu Method, Yinn and Yang Theory And lot more researches are going on till now and ahead....

Lo Shu Grid is the form of Laxmi yantra and surya yantra of India.

We can compare this with today's Machines or Robots. These yantra are also used for Health and wealth in many parts of India even today.
