

## ETL Course Content

1. **Basic SQL**
2. **Mid-Level SQL**
3. ETL Concepts
  - Staging
  - Target
  - Transformation
  - ETL Scenarios
4. Data Ware House Concepts
  - ETL Schemas
  - Types of SCDs
  - Facts/Dimensions/Measures
  - SSRS Reports
  - OLAP Cube
5. Advanced ETL-SQL Concepts
  - Linked Servers
  - UDF
  - Scalar Functions
  - Stored Procedures
  - Analytical Functions
  - Common Table Expressions
6. Advanced SQL
7. 2-3 Problem Real world Statements
8. 2-3 Project Diagrams and data flow
9. ETL tool brief working knowledge
10. Interview Preparation
