

Sikharthy Educational Service

We provide a golden opportunity to students/fresher to learn the basics of **Java Technology** free of cost (6 sessions). This program is totally practical based & Industry-Oriented so that they will be able to write code & also will be familiar with Industry approach at the end of their learning time.

Many students/fresher have dream to join IT industry but unfortunately a large percentage of them fails due to weak Technical skills. From this point, **Sikharthy** realizes that pain & has taken an initiative to organize this kind of sessions for awaking students about IT Industry,

- **What Industry needs?**
- **Which skills are must to survive?**

We also provide sessions on different technologies like: **Android, Java Technology, Web Designing, Graphics Designing** & also **grooming sessions** for facing **Technical Interview session**.

All the trainers here are from IT Industry with sufficient experience.
