

Hello Guitar Enthusiast...

If you know your alphabets you can make a word.

If you know more words you can make a sentence.

If you know good grammar and a number of sentences you can write a paragraph or a book!

If you want to learn the language of music... I do not think I need to spell out anything more!!

What you will learn:

Read tablature

Read and write music

Music material sheets to help you practice

Video and mp3 files to practice along with.

Basic fundamentals up to wherever you want to go... Sky is the limit!!!

What I need:

Dedication and serious practice.

You should have a computer and bring along a usb(Pen Drive) to copy the study files.

Class will be once a week for one hour (Email me your preferences)

During the week you will need to practice along with the files given to you

Each class is One on One (Full attention given to every student)

You will have to bring your guitar to my place for your classes so I can check and adjust it for better action (Bandra... opposite St. Peters Church)

Tuitions are given from the heart therefore the rates are competitive!!!

Online tuitions are also available which show multiple camera views.

Would be preferable to have a high speed internet (My internet speed is 90MB/Sec)

Available on Skype or Zoom whatever your preference.

Have A Beautiful Day!!!

Leslie
