Get started
Dig into your data with a large suite of fully-interactive data visualization and exploration options.
Tableau can help anyone see and understand their data. Connect to almost any database, drag and drop to create visualizations, and share your work with a click.
data.world's Tableau web data connector is designed for business intelligence analysts, researchers, journalists, and students who want to quickly find data to visualize.
Create your visualizations with data from multiple sources, including:
Government agencies
Academia
Canonical datasets
Your own data hosted freely
Data subsets via SQL
Activate Windows
Go to PC settings to activate Windows
