

Away from the city, and into
the sun, onto the city and run!
run! run. Run in the raindrops,
run beneath trees, run little races
with each little breeze. Run do
downside and up the lane, run
through the meadow and all through
again. Run and be happy, run
and be merry, all through the day.
Run and enjoy the breeze while it
lasts.

Don't waste your time by crying
spend your time by laughing.
Play now, play then, enjoy your
life while you can. Laugh now, laugh
then, enjoy your smile while you
can. Play up the hill or down
the hill does not matter where you
play.
