

JP ASSOCIATES RECOMMENDATION

RECOMMENDATION: SELL @ RS. 66 IN JUL 2014

RETURN ON INVESTMENT = **48.48%**

PERIOD OF INVESTMENT = **3 MONTHS**

This is a daily candlestick chart showing the security JPASSOCIAT on NSE from JUL 2014 to SEP 2014. It clearly shows the bearish crossover of 10 and 50 DEMA. JPASSOCIAT achieved our target of Rs. 34 in SEP 2014. An investment based on our advice would have generated a whopping return of 48.48% on the principal amount in 3 months.
