To Whom it May Concern:

As the owner of Advanced Physical Therapy of Central Florida, I am writing you to recommend Mr. Parikshit Chakraborty in his efforts to obtain employment in the computer/information technology field. Mr. Chakraborty was on a team of developers who my company employed for over a year to develop an application for use in our business.

Mr. Chakraborty was timely, responsible, detail-oriented, and was the most talented developer on the team. His ability to communicate and understand the needs of the client were excellent and I feel that this ability to communicate will serve him well in any position that he would obtain in the technology and computer science sector. I highly recommend Mr. Chakraborty as I feel that he would make a significant contribution to any organization who is wise enough to hire him on. If it were not for the limitations of immigration regulations, I would gladly have him work for my company in the United States.

Sincerely,

Lester Hammond III, P.T., Owner  
Advanced Physical Therapy of Central Florida, Inc.
